DESCRIPTION: DRIVERS HERE IN SOUTHERN NEVADA ARE JUST BEGINNING TO SEE GAS PRICES DROP, AFTER ECLIPSING RECORD MARKS LAST MONTH.
BUT, NOW, ANOTHER PROBLEM AT THE PUMP--AND IT INVOLVES OUR LAS VEGAS HEAT. MANY MAY NOT KNOW THIS, BUT GAS PUMPS ARE SET TO DELIVER FUEL AT SIXTY DEGREES.
BUT IN THE SUMMERTIME, GAS OFTEN IS WARMER THAN THAT AND, AS A RESULT, DELIVERS LESS ENERGY BECAUSE OF EXPANSION. WHEN FUEL IS WARMER THAN 60-DEGREES, THE LIQUID EXPANDS, SO IT TAKES MORE VOLUME TO PROVIDE THE ENERGY THAT'S IN A STANDARD GALLON. CONSUMER GROUPS SAY HEAT CAN COST YOU UP TO NINE CENTS A GALLON AT THE PUMP.
TOTAL THAT FOR ALL DRIVERS IN THE U-S, AND THE COST ADDED FOR GAS EXPANSION COMES TO AROUND 1-AND-A-HALF *BILLION DOLLARS.

THE MAKERS OF THE SMART CAR
GUARANTEE GAS MILEAGE OF AT LEAST 40
MILES PER GALLON. THEY ARE NOT ON THE
MARKET HERE IN THE U-S YET, BUT BY THIS
TIME NEXT YEAR, YOU WILL SEE THEM ON A
ROAD NEAR YOU.

THERE WILL BE A FEW OF THESE ON
DISPLAY...YOU'LL EVEN BE ABLE TO GET
BEHIND THE WHEEL AND TAKE THEM FOR A
SPIN IF YOU LIKE.

WE'LL HAVE MORE INFORMATION ABOUT
THAT IN A LITTLE BIT.

FIRST WE WANT TO TAKE YOU ON A MINI
TOUR OF THIS MINI CAR.

THE MAKERS SAY IT GETS ABOUT 40 MILES
PER GALLON.

THE SMART CAR SEATS TWO PEOPLE AS YOU
CAN SEE.

IT'S ONLY EIGHT FEET LONG.

THAT'S SMALL ENOUGH TO PARK IT ALONG
THE CURB FACING IN WITHOUT BLOCKING
TRAFFIC.

BECAUSE IT IS SO SMALL...THERE ARE A LOT
OF CONCERNS ABOUT SAFETY.
